Admitting all you claim in regard to the Republicans, it seems to me very clear that it is still safer to trust the party that was in authority and carried the country safe through the war than to put those in power who fought against the country, or who refused to co-operate with the party of the Union. I know it may be said that many of those who were for the Union are not now with the Republicant publicans, and have united themselves with the Democrats. This is true, but the number is so small as not to materially change the character of that party. The locofocos and the old rebels, with all their States' rights heresies, will have full control over the party and the Southern wen, called by the low-bred sycophants of the Democratic party in the weophants of the Democratic party in the North "high-toned Southern gentlemen." will in future, as in the past, be in the lead. I think Seymour will be as pliant a tool in their hands as your poor friend Buchanau was. I remember you told me it was his want of courage that induced him to allow Floyd and his mang to control him. Let these desperate men one have a national indersement of their present attuste, with the declaration in the platform that the reconstruction acts are "revolutionary, illegal, and void." and who can predict the anarchy, confusion and violence that will follow in the Southern States? What Northern man or other Union man can remain there in asfety? I regret exceedingly the sweeping terms in which you speak of the men who have gone South from the Northern States. I know very many of them that are equal to any man in the country, North or South, and they all tell the same story—that is, before the enactment of the reconstruction measures, as now, though treated with civility, they are given to under-stand that they were not wanted there. There were, they said, exceptions, but this was the general rule. You know that in this respect the Southern people have always been ex-tremely sectional. But they are as hostile, and even more so, to native born citizens who were opposed to them during the war or are opposed to them now. Their classification is this: Those who came there during or since the war, "carpet-baggers:" those who were there from the North before the war, "scalawags;" and those who were born there and act with the Republicans, like Judge Hill or Governor Brown, of Georgia, are called

Your argument that we should support the

Democrate this fall, because the Senate will hold them in check, is the same put forth by Seymour in his begging letter; but you know that this, as to the situation of matters in the South, would be no check at all. The verdict being in their favor at the election, there would be a reign of terror down there, as in 1861, which drove such men as old John Bell to declare for the Confederate cause, or be assassinated. Gheral Lee says they want peace and will behave themselves. And he will pledge himself that they will, if restored not only to civil and political rights, but to office, State and national. If they have every thing their own way, they probably will, and so they would in 1861. They did not want war then, for they had seen enough, at least such men as Lee had, to see that they would be whipped. But Lee is not a good judge of Son hern opinion, he did not believe there would be secession in 1861, and was opposed to it, till he went "with his section," as he will again, whenever it decides upon vio-You say that at the end of two years if the Democrats don't prove themselves worthy, we can put them out. Oh, my dear sir, if the elections were all subject to be controlled by you, or such men as you, this might do; but, unfortunately, we know that they are not, and that, in fact, good men have no more influence than the bad ones. The rebels and ther old allies, the locofocos of the North, once in power, they may retain it until all we gained by the war is thrown away. The Re publican majority in Congress has been too large, and, in consequence of this, and the folly of the President, extreme and unwise measures have been adopted, but. in any event, there will not be such a majority in the next Congress; and with a man of the firm-ness and will of General Grant, and his well known generosity, we may expect with great confidence a wise and judicious administration of affairs. After all, what great evil can result from the reconstruction acts? They constitute at awkward and dangerous method of recovery from this disorganization of civil g vernment caused by the rebellion. The evil will be but temporary. Look at Georgia, where the white population have acted like men of sense. Have we not here, even under these acts, a substantial and fair government established? The negroes are to vote? Well suppose they are? Is it right that so large a part of the population should be counted in representation and yet have no representation Neither voting themselves nor others for them, than secase of women and children

There ought to be a restoration of politica and civil rights; but I am not willing to say as the rebel generals claimed, and as seemed o be conceded at the New York Convention that they were "as good as any of the men they fought against!" I am not willing thus to forget the glory of the cause our men fought for, to say nothing of their treasonable rebellion! Nor, my dear sir, will it do to say that this is an unwise prejudice. Justice, alike to the living and dead, requires that at least this distinction should be kept fresh in our memories! By the way, did you notice the peculiar and carefully selected rhetoric in which Vallandighan spoke of the military fame of General Grant? After speaking of him as the candidate of the Republicans, and therefore as the representative of their doc-trine, etc., he adds: "Beyond this he represents nothing to me but the cold lava of the burnt-out volcano of the late civil war." There is a great deal of cold impudence is this, but I think it correctly represents the feelings of the leaders of the Locofoco party in regard to the record of our brave men in the war against the rebels—their desire that instead of being forever remembered with gratitude by the country, they should, as coon as possible, be forgotten, as representing the most appa ling evil, instead of the glorious eeds of a patriot fighting for his country I do not know that I fully understand you

idea in regard to the payment of the national debt. If in a moral point of view the nation, as a debtor, in paying borrowed money, is bound only to pay the real value of the money bor rowed, instead of the number of dollars called for, the same rule ought to be observed in settling loans between individuals—that is. it to be regarded as inequitable to de mand more than the actual value of the thing borrowed. But how is this to be ascertained believe that in 1864 gold was as high as 280 Shall we, therefore, say that for every \$2 80 loaned to the Government only \$1 in gold chould be paid? The fact is that, at that very time a paper dollar was, for many purposes, worth more than a paper dollar is now. The price of labor and the price of land are higher than in 1864 in paper, and if the for land instead of the public securities, the investment would have been equal, probably, to the Eve-twenties payable in gold. But your statement leaves undisposed of the real and all-absorbing question involved in this matter. What is the Government to do with the currency? Are we to have a currency that shall be a standard of values, or are we, for an indefinite period, to have an irredeemable and depreciated currency?

You have rend the brief on one side. I have examined and weighed the case carefully n both, with a most earnest desire to sustain on both, with a most earest desire to sustain, if possible, the party towhich very many of my old friends and political associates belonged; that I would not do it was their fault, not mine, for I warned them repeatedly, of the gulf which they were opening between us, which it were impossible for he to pass without an abandonment of my lifelong cherished principles, and while these executions. uring all my political life spoken and writ-en against nullification and secession. on and the Union.
In this, Judge Ranney Allen, and other old school Democrats, tookhe stand with me. It was not a party, but a national, a Union movement, and I did no propose then, nor do I intend now, to slide uto a party which by its reckless violence is degroying both the Union and the republican government under which aioneit exists. I have for sons and two sons-in-law, six in all. When an armed force became necessary, five of the six volunteered— of these all but one, tho was disabled by a wound, served during he war, and fought in more than twenty battle; beginning at Bull Run and ending at the rand review in Washington; and of these our no one was less than twice promoted fo good conduct on the field of battle. It is ool for gentlemen to talk to me of their achievements and arrogate the right to govern the nation because they saved it, when few of them rendered more efficient service in the hour of trial than I, and the millions who think and act with me. And the most that many of those did who claim most merit, and are most clamorous and exacting, was to manufacture shoddy, and with it, to cheat the Government in clothing furnished our troops.

In the beginning of the contest it was of paramount importance to secure the co-operation of the border States, especially Kentucky, and to this end I held consultation with Mr. Crittenden, and at his request, he being in feeble health, but strong in the ruling passion—devotion to the Union—I drew ing passion—devotion to the Union—I drew up the resolutions which bear his name, which, without the change of a word, passed the two houses with but three dissenting voices. I intended them in good faith, and to they were received by the burder States; but that faith was violated by Congress at its first session after the surrender of the rebel army and the dissolution of the Confederate government, and this breach of faith has produced all of the anarchy and most of the evils which have distracted the nation. I have washed my hands o: it, and of the party who washed my hands of it, and of the party who committed it, and still persist in asserting and sustaining it. The old Whig party, to which you and I belonged, was a sincere and truthful party. So with the Union party of 1861; they violated no obligations legal or constitutional; they broke no faith, but held due on to the execution of their just and lawful purpose; and I am too long taught in their school to now j in in, or knowingly give cal combination, however largely composed of those who once acted with me and were

Whether justly or not, I am proud of the part which my family ore in the late conflict, and am not at all afraid that their laurels will be tarnished by the observance of strict good the principle fought for and laid down their No, nor even extending to their wounded feelings their prejudices and opinons, a liberal, and even a constant indulgence. In leed, I think the just and liberal is the wiser as well as the more honorable policy. We are more likely to restore our brethren in heart and feeling to the Union, and to heal the wounds caused by the late terriole conflict, by the observance of strict good aith, and a conscientious observance of our constitutional obligations toward them, than by assuming superiority over them, heaping n them contumely and reproach, and send ng spies among to slander and misrepresent You express fears that if Seymour and Blair are elected they will reinitiate secession, and that we shall lose all we have gained by the war. As a reasoning man, do you think Do you think the intelligent men of the mences, under which they have endured such terrible calamities, or that because they are reated with justice and mercy they will imrediately rush into another destructive war , for myself, think the only danger of another revolt lies in the continuance of the present party in power, and of their lawless policy made up of mingled insult and oppression such as men of ordinary spirit, who have once been freemen, would die sooner than endure. Men who have been free will not submit to permanent degradation and political servitude, or even inferiority. When this is known to be the fixed, atern and relentless policy, they will resist by force of arms, and in that event their resistance will be justified on the universally acknowledged principle of the right of revolt against intolerable oppression. Had the same cause existed in 1861 which now exists, no Northern army would have crossed the Ohio river to put down the revolt. You express fears that the North will countenance ession if Seymour and Blair are elected In the present state of things, and the present party permanently in power, that were possi ble; for, the fierce passions of conflict having subsided, the mass of mankind sympathize with the conquered, especially if insulted or oppressed; but expect an administration disposed to restore them where they were before the revolt, and I see no rational probability that the 100,000 majority in Ohio which recorded their votes against secession, and in favor of subduing it at any cost, will at any cost, will at once change sides without a shadow of reason, and sustain it. I have looked the condition of things full

the face and write down my deep convicons. There is danger of another civil war. deplore the threatened mischief, and have lone all I can to avert it, and still hope the itter cup will pass from us. But the party in power are resolutely fixed in exciting to the utmost, and keeping up to their highest intensity, the fierce and angry passions of men, and it were vain for them to expect ferocity on one side, and calm endurance on the other. Their policy continued will force on collision, which let them in prudence avoid. The moral and physical power of the nation is against them; they can proscribe voters and manipulate elections, but their power will fail against men, embioded and under arms, where each man counts, whether cheated of his vote or not; and in this arbitrament they rould be but as one to three. The f they really force it on, will not be strictly section against section—the South will be united, the North divided—it will be like the war between the Guelphs and Ghibilines, war between the Gueiphs and Ghiblines, which, for more than two hundred year, deso-lated Italy, and in which Guesar Borgia practiced the lessons in political morality which Senator Morton has been taught to adopt and practice, by our five years of war. If he had revised his reading of Machiavelli's Price, it would have deprived his lessons of the charm of novelty, as he would have found it in full practice many hundred years ago, and by practice many hundred years ago, and by looking a little further he would have found that it peopled Dante's hell to its ninth circle, with more than half its tenants. It were berter for the country, better for the party. Cha Congress should not reassemble on the 15th If they meet they can not hossibly abstant from interfering in the Southern elections unless, indeed they be overswed by a strong Northern vote: it is the sole business for ar they will feel bound to act.

The following letter was made public the

ret time on Wednesday night: Washington, Saturday, June 27, 1868. Dean Sin:—I regret I can not speak favor-bly of the Chicago platform. It is like most of the Republican platforms for the past six years, lame and cowardly. For twenty years before the war the North behaved like pol-troons in all their legislative controversies with slavery. They have much more physical than moral courage. Had it not been for a few determined men in 1861 the Union would have been dissolved. The Republicans have, is I said, great physical courage, and when briven to the test, will always conquer. They are just as timid now as they were before the war—for trade might suffer. What did the old men at Chicago gain by selling the right f suffrage? They tell me that the loyal blacks at the South earned it by the aid they gave us but that when they have not made that pur chase, the right of suffrage remains at the pleasure of the State. Now, the Republican party knows that the Declaration of Indepen-dence contains no such folly, no such wicked-I treat every man as a man, and the right of universal suffrage as an inalienable right, long suspended from neglect, and now, for the first time since the forming of the Constitution of the United States, capable of inforcement. You insult the shades of Adams, itis, Jefferson, and their compeers. by talking to them about bartering the imperishable right of the elective franchise. Why not traffic or sell their life, liberty, and souls? This doctrine reduces all men to soulless slaves or corpses. This question must be met; the mer it is done the more successful it will There is one consolation. The Demo rats can't find as good candidates; but, from

constant and long practice, will make a much more villainous platform. It is vain for the Republican party to hope to maintain their liberty by skulking. Under Keaven our only salvation is the defeat of the Republican party in the coming elections. So we think; and so thinks the Journal of Commerce, whose ability, disinterstedness, and impartiality are frequently the theme of Republican praiso. "The only se-curity against an event so fatal to the republic," says the Journal of Commerce, referring to the peace of despotism, "is to bring about peacefully a change in the present policy of the government towards the South. The The scheme of forcing unqualified negro suffrage on the South, while it is refused by the people of the North must be abandoned. It is illogical, unjust, totally untenable. The Southern whites should not feel that they are invidiously discriminated against, but should be treated in a spirit of kindness and magna-nimity instead of suspicion and distrust. The military power and the Freedmen's Bureau should gradually be withdrawn, and the James Sudduth, of Newton vicinity, sold 43 head at 6 cents per pound averaging him on the same footing and with the same dignity as the other States of the Union." policy herein suggested is const old two steers at 7 cents.—Ibid. statesman-like, and patriotic; and it w l

A FIELD of corn containing 24 acres, near ing the dress to the shape and size of the wearproper proportions of the figure is of course the chief help. There are however, a few well-ascertained rules which may safely be tought. One, f.r instance, is that transverse shapes generally tend to lessen height and in crease breadth, while lon gitudinal forms have the opposite effect. Another well-known rule (which I believe is easily explained by a reference to optical science) is the tendency of light colors to increase the apparent size, and vice versa. People of more than average size should be cautious about wearing white or very light colors for this reason, although it must always be remembered that proportion and color impress the eye so much more sensibly than mere scale that this rule is a very ordinate one, and only to be applied aft those more important subjects have been thoroughly considered. It should, however, be remembered that more than average size necessarily involves a certain degree o spicuousness, which makes any peculiarity of dress doubly undesirable in such cases. A small person may wear with impunity both colors and shapes which would be inexeusably striking in one of a large figure. Nothing goes so far to redeem unusual size as complete repose both in form and color. ing, loose ends and streamers, frills and fur-clows, and caprices of all kinds are apt to ecome intolerable when magnified, while a small scale they may please, by a certain fluttering airiness whice is in keeping with the impression of a tiny creature. But here also proportion may almost reverse the effect of scale. A short heavy figure may even more mperatively need quietness in dress than one twice its actual volume which has run upinto slenderness. And this naturally leads me to the second respect in which dress should be adapted to the wearer, namely, character; which indeed, is scarcely separable from the form on which it is impressed, and according to which such questions as the last should mainly be decided.—Cornhill Magazine...

THE residence of the Ray. Mr. Maple, the steemed pastor of the Baptist church Owensboro, was the scene of a very unique and novel surprise on Monday evening. We are to have two full moons during the month of October, one on tae list and the other on the 31st, a good time for luntics. The prophecy registered by Jankins that there would be more marriages this October than during any other month since the war was probably based upon a knowledge of the above fact.

J. T. Elliott-Raw Material of a Carpet-bag Congressman. In the fall of 1864 a printer named J. T.

Elliott applied for a situation in the Democra office. He was ragged, dirty, penniless, and hungry. We pitied him, and, after giving him some money to supply his immediate wants, gave him a "stick and ease." In an hour or two after he began work, a committee appointed by our regular journeymen waited upon and informed us that their self-respect orbade them to work beside such a man that he was covered with filth and vermin, had the itch, and emitted a stench which sickened them. We examined the matter, and informed the unfortunate man that he must discontinue work, and wash and cure himself. Our printers contributed liberally, and supported him while he used sulphur, and endeavored to drive away the aroma which he carried abous his person, and which bore no resemblance to the perfume of roses. He was only partly accessful, and was as-signed a place in the office as fat removed from the other workmen as possible.

In a few weeks after his appearance in the city, he concluded he would go into the newspaper business, and issued the prospectus of "The Southern Refugee and Cotton Planter." The Southern Refugee and Cotton Planter. He procured about a hundred subscribers at three dollars each; and pocketing the money, laft for parts unknown. When next we heard of him, he was publishing a radical paper at Jacksonport, hob-nobbing with negroes and talking about loyalty. J. T. Elliott is now the radical candidate for Congress in the Camden District of Alabama.

We have no doubt many of our citizens remember this man. A more depraved specimen of humanity does not live on the face of the earth. Of weak mind, almost imbecile, he was an object to pity and to loathe. And he is one of the statesmen, which reconstruction has brought to the surface in the Southern States! God have mercy on the unfortunate people who are ruled by such men. May His curses fall upon the party which has imposed rulers of this kind upon the people. Is there any wonder the decent people of the South we need to be supported to the surface of people of the South are restless? Is it not a wonder they do not rise and die in arms rather than submit to the degradation of radical tyranny?—Cairo Democrat.

Something New-Taking the Veil at Nunnery within the Communion of th Church of England.

(From the New York Herald.)

It will be remembered that at the Wesleyan Conference held recently in England, the pinion was expressed that the Church of England is gradually ceasing to be a Protes-tant Church. If the Rev. Mr. Jackson and his friends are in the habit of reading the Church papers, their convictions on this subject are likely to be strengthened. The accounts of a church celebration at Brighton, counts of a church celebration at Brighton, and of another at All Saints Church, Lambeth, would have seemed their proper place in Talbet; but they were not so startling as the description given in the Church News of a young lady taking the veil at Feltham nunnery. The postulant was dressed as a bride, and the "father superior" cut off her hair, having a towel spread over his knees to receive it. "While the navice's hymn, Fareceive it. "While the novice's hymn, Farewell, thou world of sorrow, was being sung by the sisters, her long black hair was all cut off, the black long tresses falling on the ground around her." Her dress was changed and she put on the Benedictine habit. She walked to the altar steps holding her lighted taner, and "while she was receiving the taper, and "while she was receiving the sacrament the choir curtain fell, and neither she nor the other sisters were seen any more. The Feltham nuns, it appears, lead a life of strict seclusion, never going out and only seeing visitors through a grating. They reinviting the Anglican and Eastern bishops to

An Ill-fated Banker.

Sir John Dean Paul, the notorious London anker, it is announced, has died in the penal colony of Van Dieman's Land, at the age of 66. He was prominent in the religious world as a professed friend of all the benevolent enterprises, and was for many years a partner in the hanking establishment of Strachan, Bates & Company. In 1855 this widely-known firm failed, and it was discovered that securities deposited with them for safe keeping had been sold and the proceeds made use of. Criminal proceedings were instituted, and on October 20th, 1855, three partners were tried at the Old Bailey for the frauds, convicted and sentenced to transportation for fourteen years The scene in the court room at the passing of the sentence was remarkably solemn and Baron Alderson, the presiding judge, in sentencing the prisoners, was sev eral times unable to proceed with his re-marks, and was occasionally insudible. The prosecutor was affected to tears, and the prisoners seemed completely stunned, being unable to utter a word. Sir John Dean Paul then vanished from the world of London; re-ports were received of his good behavior in rison, where he was employed in making askets, and of his release on ticket-of-leave. His sentence would have expired in about year's time, but death has removed him from all his troubles. The case of Siz John Dean Paul is usually mentioned as a striking proof of the rigor with which the criminal laws are nforced in England. His position was auch as to elicit the cympathies of a large and in-fluential class of society, but he was never-theless consisted, and treated like any ordi-nary criminal was had never enjoyed life in the high places of the world.

A Washerwoman Becomes a Saint. A correspondent of the London-Pall Mall

Nothing is now talked of at Rome but the new saint, Maria Taigi, a washerwoman in the service of the Chigi family, who died here in 1837, in the odor of sanctity. A great sensation has been created by her prophesies, which were confined to her confessor, Father Natali, now ninety years of age, who has faithfully related them as the events successively happened.

The proofs of her present residence in heav.

The corpse was found perfectly fresh and is flexible, and now exposed in a chapel ardente, raised at the expense of the Princess Barberini, in the aforesaid church, where everybody in Rome, with the exception of myse!f, has kissed its feet. The exhumation was ordered on demand of the Postula tor for her canonization, on his adducing the proofs of her beatitude, which state, among other wonders, that her image was sent to the Capitol last October, with an intimation that the building was threatened by a great dan-ger, which nothing but this palladium could avert. The Celebrated Cashmere Shawls.

Finest of all woolen textures and most exquisite in workmanship is the Indian shawl. Uniting richness of design with freshness of coloring, it has no rival in the world. It is not only the most splendid tissue ever wronght by the hand of man, but it is also the most solid and durable, whether it adorns the shoulders of a modern belle or the waist of an

Eastern potentate.

The Vale of Cashmere, where roses ever Cashmere shaw is woven by hand from the finest wool grown in Thibet. The wool is first span and then dyed. It is then woven in segments which are afterward joined so skillfully as to leave no trace of the seam visi-ble. The flowers are then worked in by hand, after which the shawl is cleaned and covered

with a strong size, made principally of rice, when it is ready for market.

Shawls were formerly made in pairs, but since European dealers have invaded Cashnere more than two are made from the same

If destined for Europe, the shawl has to be If destined for Europe, the shawl has to be disencumbered of its provisional dressing. For this purpose it is washed in the river flowing from the Lake of Cashmere, whose waters are reputed to preserve the colors, a property attributed to the aromatic plants growing on its banks. A sheet of paper is taid between each fold of the shawl. It is enclosed in four or five envelopes, and packed with the attribute present the state of the

with the utmost precaution.

So delicate and complicated a work can only be accom plished by workmen versed in it from infancy, and who, living upon a handful of rice, are satisfied with moderate wages. The best workmen scarcely earn more than from three to four cents a day. The low price of labor will always render Europe tributary to Asia for this luxurious production. A shawl which cost \$400 at Cashmere, or at Umrisur, in the Punjaub, where these shawls are also fabricated, could not be made for less than \$5,000 to \$6,500 by European workmen. The material only enters into twenty per cent of the cost. Hence many French manufactures have formed establishments at Cashmere and Umritaur, where shawls are made by native

workmen; but in too many instances they in-troduced their own designs which have changed the national character of the shawl, and often in these cases the beautiful tissue is concealed beneath a mass of embroidery.

Shawls of inferior quality are also made at Loodiana were this industry was introduced by a colony from Cashmere, recruited every year from the valley. The colors of those made at Loodiana are very solid, and bear constant washing. They are wanting in brilliancy of tints, consisting principally of brown, dark bottle-green, and indigo blue. The colors most prized are a dull yellow, shades of amaranth, and most brilliant of all, a kind of rose pomegranate of the finest thread, used only in shawls of the finest quality. The favorite color in India is a bright copper green; it fades, but is very brilliant and costly, and is chiefly enployed were palms are introduced into the design. Another shade of the same color is used for the warp of the finest shawls,

as is also turquoise blue, a most costly color.
At Loodiana the workmen are seated three together at the same strip, in front of a cylinder upon which the warp is rolled. Each has at least fifty shuttles. The chief sits in the middle and guides the other two. In one pair of shawls is six hundred days work; they would cost at Loodiana, if of the finest quality made, about \$100. The white shawls with

green palms are the coarsest.

These Loodiana shawls are heavy, the palms stiff and ungraceful, and they are destitute of the softness so admired in Europe; of this they gain in a great degree by wear and washcite the Benedictine rules. And all this takes place under the superintendence of persons within the communion of the Church of England. The account concludes with the hope that the Pope will make the approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome" indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome" indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome" indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome" indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome" indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome" indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome" indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical by incited the Approaching council at Rome" indeed Ecumenical by incited the Approaching council at Rome "indeed Ecumenical made in the Jacquard loom by workmanship, the most intricate and complicated.

An attempt has been made to imitate these shawls in France, but the perfect softness of the Indian shawl has never yet been equal.

Another great merit of the Indian cachemire consists in the harmony and effect produced from the proper distribution of color and the rich invention of their patterns; these give them an evident superiority over the French shawls, which last are chiefly distinguished by their well chosen designs and the parfect regularity of their weaving, equally apparent both in the ground and border. The Cashmere wool is the most delicate and difficult of all tissues to work, so that the Eastern natives, by their success in weaving it, have earned the reputation of being the most patient and most skillful weavers in the world.

Letter from General McCiellan.

At the great Democratic mass meeting in New York on Monday night, the following letter from General McClellan was read amid the most enthusiastic applause:
New York Oct. 5.—To Douglas Taylor.

Esq., Chairman.
Mr Dear Sir: I have the pleasure to acknowledge the reception of your invitat preside over the Democratic meeting on Mon-day next. I have long since determined to abstaip from further participation in political life, and therefore find myself compelled to decline the honor you proffer me. I gladly avail myself of this opportunity I gladly avail myself of this opportunity to express any continued hearty sympathy with the Democratic cause, and my wishes—ardent wishes—for the success of those constitutional principles for which the recent war was undertaken by the North. Separated as I thus am from the distinguished soldier who has been chosen as the leader of our opponents, I know that you agree with me in the highest respect for the services he has rendered our country; but it is my conviction that the measures of the party which has placed him in nomination are but continuations of strife, and can never restore peace tions of strife, and can never restore peace or constitutional supremacy, and thereby complete the work that he and the other

brave soldiers so ably commenced.

The war was only the first epoch in the history
of strugges in which we have long engaged.

The work of the soldier is, I trust, forever ended, and it now remains for the people to fulfil the great object for which they or their sons and brothers were called to the field. A restored Union of States and hearts; an inrestored Union of States and hearts; an in-vigorated Constitution to be firmly and faith-fully supported by the maintainance of the na-tional credit inviolace, and the establishment of national and State rights in all their integ-rity, thus true harmony and a lasting peace. These are the objects for which every citizen should now strive for.

Believing they rest in the suc emecratic cause by the election of the emient statesman selected to represent the party, it is my intention to sustain that cause as a private citizen. With the request that you will convey to the gentlemen of the committee and any other friends for whom you act, my sincere thanks for the compliment they

ave paid me,
I am most truly yours,
Gro. B. McClerrax.

In our honest judgement it rests entirely with the County Court of Mason to say whether the enterprise shall succeed or fail. And in this is embraced the question, whether Maysville and Mason county shall increase in wealth and population, and improve in all the elements of material civilization, or retrograde. If the County Court shall adhere to the conditions fixed they can be fulfilled. He probably found every one in Maysville scrupulously honest, and his trip was not profitable to him. But Rainy would infinitely prefer all men to be honest even though "Othello's occupation" might not flourish.

Runaway Match .- As Mr. Thomas Nicholson was returning from Sardis on Wednesday eve last, his buggy horse became frightened at some cows lying on the roadside, and ran away upsetting his buggy and throwing himself and wife out on the pike, injuring them both quite severely. Mrs. Micholson. though badly hurt, saved her baby, which she was carrying in her arms, from any bodily harm. The horses were caught several miles distant from the scene of the accident, having completely wrecked the vehicle to which they were attached.

Thieres About .- On Saturday night last, thief entered the Store of Messra. Myall & Matthews, in Mayslick, by going into the cellar and coming up through a trap door in the foor. Beloved Brethren of the Clergy and Laity The supreme council of our church about to assemble in the city of New York, on the 7th day of October inst., is perhaps the most mo-mentons meeting of that body since the or-ganization of this church in the United States. It is the first meeting of the whole church since 1859. Bishops, clergy and laity will assemble from every State and almost every Territory of our vast country, with all traces of the great civil conflict obliterated, and meeting in unity and love, with a common aim to advance the kingdom of God's dear

aim to advance the kingdom of God's dear son throughout this great republic. It is an occasion calling for devout grati-tude to God, and at the same time for earnest and unceasing prayer. It is not to be denied that there are causes seriously threatening the peace and unity of the Church. At the same time, the most vital and momentous questions are to come before the Council for discussion and decision. The establishment of new dioceses, and the consecration of new Bishops, the extensions of the missionary agencies of the Church, the great topic of the license of divorce, so common in this country, questions affecting the Ritual, the Faith and the Order of the Church; these are but a part of the solemn topics which are to engage the deliberation of our highest legislative

We call you, therefore, to unite with our brethren throughout the land in prayer to God for His blessing upon the Council, and His guidance, by His Holy Spirit, of all its

decisions.

We recommend that the prayer appointed "for meetings of conventions" be used on all occasions of public worship, beginning with the 17th Sunday after Trinity, October 4th, and to be continued during the session of the convention. Until the 7th of October, let the words "soon to assemble" be substituted for

And we earnestly exhort all the families and members of our church to make earnest petitions to God around their family altars, and in their closets of prayer, that God may heep far from us every evil that would impair the faith, the unity, and the peace of the Church, and that He would make the Protestant Episcopal Church in these United States more and more the firm and unchanging de fender of "the faith once declared unto the

VENTION. Almighty and everlasting God, who by thy Holy Spirit didst preside in the councils of the blessed apostles, and hast promised, through thy Son Jesus Christ, to be with the Church to the end of the world, we beseech thee to be present with the council of thy Church here assembled in thy name and presence. Save them from all error, ignorance, pride and prejudice; and of thy great mercy vouchsafe, we beseech thee, so to direct cancily and govern us in our present work, by the mighty power of the Holy Ghost, that the comfortable Gospel of Christ may be truly preached, truly received, and truly followed, in all places, to the breaking down the kingdom of sin, Satan and death, till at length the whole of thy dispersed sheep being gathered into one fold, shall become partakers of everlasting life; through the merits and death of Jesus Christ, our Saviour.

STATE NEWS.

A HORRIBLE OUTRAGE. We understand an aged fiend in human shape, was detected in the act of attempting to perpetrate a horrid outrage upon the person of a poor idiotic girl, in this city, a few evenings since. Fortunately for both the girl and the old acoundrel, his designs were frustrated before the girl was ruined, and before he had proceeded to the extremity that would soon have left him swinging by the neck. As it was, when the rumor of his villainy reached the cars of some of our warm blooded citizens a hasty departure from the city, alone saved him from their indignation. To the credit of the Landlord, at whose hotel he was boarding, be it said that as soon as the rumor reach of the attempted outrage, he immediately GROCERY, PRODUCE, ordered the perpetrator to leave, since which time he has not been seen or heard of. being fully acquainted with the particulars we refrain from giving names .- Harrison

TRAGEDY IN HARRODSBURG-TWO MEN KILL FD.—By passengers on the stage from Harrod-sburg, we learn that Dick Hanks and a man named Phillips were killed in that place on Monday afternoon. They had gone to town on that day for the purpose, as they said, of "taking the town." The vigelance of the author ities prevented a disturbance during the day. Late in the afternoon, as they were leaving, in a buggy, for home, they fired pistols in the air on the streets. The police attempted to arrest them, and they then fired at the police. The officers returned the fire, instantly killing Phillips, one of the shots hitting him in the head. Hanks, although disabled in the hand and his pistol so shattered that it would not revolve, still resisted until so badly wounded that further resistance was impossible. He that further resistance was impossible. He was shot four times—twice in the breast, once in the abdomen, and once in the hand. He died early the next morning. Both of the deceased are represented as dangerous men. Phillips, it is said, was but recently out of the penitentiary, and Hanks will be remembered as having assaulted Marshal Holeman, of this city, last winter. If the facts are as related to us, the occurrence will have a salutary effect in repressing lawlessness. The entire commu-nity of Harrodsburg will sustain the police in their action in the difficulty.— Yeoman.

The Eighth District.

The Danville Advocate has cheering news om the mountains. It says the contest in the Eighth Congressional district, between Hon. George M. Adams, the standard-bearer of the Democracy, and Colonel Sid. Barnes, the Radical candidate, is waxing warm. They will complete a list of appointments in the counties of Harlan, Letcher, Perry, Breathitt, Wolfe and Estill this week. We had a talk with a well posted gentleman who resides in Wayne, and he informed us that that county would largely increase its majority for Adams, while the contest in the Radical strong-hold of Pulaski would be close and doubtful. If that is the case, and we have no reason to doubt it, the election of our gallant young champion is assured, and Kentucky will return an unbroken delegation to the next Congress.-Lou. Democrat.

HYMENEAL EXTRAORDINARY .- On dit that Secretary Seward will soon lead to the altar the daughter of Solicitor Risely, of the Treasury Department. The matrimonially-inclined Secretary was only sixty-seven years old last May, while the fiancee is twenty-five or twenty-six. Recent afflictions in both families may delay the nuptials for awhile.

A RESIDENT of Martigny, Switzerland, has lately organized a considerable trade in ice at Lausanne. The ice from the glaciers having been sawed into regular cubes of small vo lume and perfect transparency, is placed into boxes and sent off by fast trains to various centres of population in France, and arrives with very little waste.

Fire-Proof Paint.

THOMAS, HARRIS & CO.'S

Protectorate FIRE-PROOF PAINT.

We are prepared to supply the public with the most durable and best paint that is now in use, for House, Railroad Care, Steamboats, and all other purposes waere durability and safe, y against fire or exposure is required.

The materials from which our paint is composed, are of a nature that will not corrode from long exposure, neither will it contract with sold, or expand with heat. It will not crack or bluster after it gets thoroughly dry, as most other paints do when they are exposed to heat.

THE PROTECTORATE PAINT is much lighter than lead, will cover a much larger surface than the same weight of lead, and will make as smooth finish as any other point. It can be finished up in any color that may be desired, and still retain all of its fire, weather, and water-proof condities.

THE PROTECTORATE PAINT is intended to rander all the different paints imper-vious to flame, as much so as it is possible for pain to be when ground in oil, and containing the weath-er and water-proof properties.
